- Engine oil and filter changes: every 500 hours
- Fuel filter changes: every 500 hours

## WORK ORDERS

DATE	DESCRIPTION	NOTES
September 2023	New traction control accumulator installed	
September 2023	Driver's side suspension cylinder bushing replacement	
April 2025	Front structure gasket, crank seal, main & rod bearings, oil pump	Full lower end service
January 2026	New cylinder head & gaskets installed; EGR fully deleted	EGR failure caused coolant ingestion into pistons

The work orders listed above represent major and recent service items only and are not a complete service history.

## CONDITION NOTES

EGR system failed in January 2026 resulting in coolant ingestion. Machine was repaired with a new cylinder head, gaskets, and full EGR delete. Lower end serviced in April 2025 including gaskets, crank seal, bearings, and oil pump. Machine has been properly repaired and is ready to work. Bidders are encouraged to inspect prior to purchase — preview by appointment, contact Logan Ede at 1-306-736-7220.
