**North Dakota law requires a written property disclosure for the sale, exchange, or purchase of real property if:**

The real property is a residential dwelling with no more than 4 units located in North Dakota being sold or exchanged by the owner.

Except as otherwise provided in an offer to purchase agreement, before the parties sign the final agreement for the sale, exchange, or purchase of real property, the seller shall make a written disclosure to the prospective buyer.

The written disclosure must include all material facts the seller is aware could adversely and significantly affect an ordinary buyer's use and enjoyment of the property or any intended use of the property of which the seller is aware.

If any party to the transaction is represented by a real estate salesperson or broker, the disclosure must use this written disclosure form or substantially similar form and must include latent defects, general condition, environmental issues, structural systems, and mechanical issues regarding the property. If the parties are not represented by real estate salesperson or broker, the seller may use this form.

This law does not apply to transactions for the sale, exchange, or purchase of real property made: (1) pursuant to a court order; (2) between government agencies; (3) by a mortgagor in default for a mortgagee; (4) pursuant to a foreclosure sale; (5) by a mortgagee or a beneficiary of a deed of trust acquired the real property by a foreclosure, deed in lieu of foreclosure, or collateral assignment of beneficial interest; (6) by a fiduciary administering a decedent's estate, guardianship, conservatorship, or trust; (7) between co-owners of the real property; (8) to a spouse, child, parent, sibling, grandchild, or grandparent; or (9) if the real property is newly constructed residential real property with no previous occupancy.

Beginning August 1, 2025, additional disclosure and documentation on radon is required. Refer to North Dakota Century Code 47-10-02.2 for more details.

This form is designed to guide you, the seller, in making the legally required disclosures and to assist you to avoid inadvertent nondisclosures of material facts as required by statute. You must disclose all material facts that are required by law, even if not specifically asked in this form. Additional space for disclosure is provided on the last page of this form, and you may attach any additional information as necessary, including any required documents on radon tests and mitigation.

Refer to North Dakota Century Code 47-10-02.1 and 2 for more detail on requirements of the statute.

**WELL USE STATUS:** Indicate the use status of each well.

- **IN USE:** A well is "in use" if the well is operated on a daily, regular or seasonal basis. A well in use includes a well that operates for the purpose of irrigation, fire protection or emergency pumping.
- **NOT IN USE:** A well is "not in use" if the well does not meet the definition of "in use" above and has not been sealed by a licensed well contractor.
- **SEALED:** A well is "sealed" if a licensed contractor has completely filled a well by pumping grout material throughout the entire bore hole after removal of any obstructions from the well. A well is "capped" if it has a metal or plastic cap or cover which is threaded, bolted or welded into the top of the well to prevent entry into the well. A "capped" well is not a "sealed" well.  
If the well has been sealed by someone other than a licensed well contractor or a licensed well sealing contractor, check the well status as "not in use."

If you have questions please contact the North Dakota Department of Health at 701-328-4619.
