Minn. Stat. Section 152.0275. CERTAIN CONTROLLED SUBSTANCE OFFENSES; RESTITUTION; PROHIBITIONS ON PROPERTY USE; NOTICE PROVISIONS.

Subdivision 1. RESTITUTION.

(a) As used in this subdivision:

- (1) "clandestine lab site" means any structure or conveyance or outdoor location occupied or affected by conditions or chemicals typically associated with the manufacturing of methamphetamine;
- (2) "emergency response" includes, but is not limited to, removing and collecting evidence, securing the site, removal, remediation, and hazardous chemical assessment or inspection of the site where the relevant offense or offenses took place, regardless of whether these actions are performed by the public entities themselves or by private contractors paid by the public entities, or the property owner;
- (3) "remediation" means proper cleanup, treatment, or containment of hazardous substances or methamphetamine at or in a clandestine lab site, and may include demolition or disposal of structures or other property when an assessment so indicates; and
- (4) "removal" means the removal from the clandestine lab site of precursor or waste chemicals, chemical containers, or equipment associated with the manufacture, packaging, or storage of illegal drugs.

(b) A court may require a person convicted of manufacturing or attempting to manufacture a controlled substance or of an illegal activity involving a precursor substance, where the response to the crime involved an emergency response, to pay restitution to all public entities that participated in the response. The restitution ordered may cover the reasonable costs of their participation in the response.

(c) In addition to the restitution authorized in paragraph (b), a court may require a person convicted of manufacturing or attempting to manufacture a controlled substance or of illegal activity involving a precursor substance to pay restitution to a property owner who incurred removal or remediation costs because of the crime.

Subdivision 2. PROPERTY-RELATED PROHIBITIONS; NOTICE; WEB SITE.

(a) As used in this subdivision:

- (1) "clandestine lab site" has the meaning given in subdivision 1, paragraph (a);
- (2) "property" means publicly or privately owned real property including buildings and other structures, motor vehicles as defined in section 609.487, subdivision 2a, public waters, and public rights-of-way;
- (3) "remediation" has the meaning given in subdivision 1, paragraph (a); and
- (4) "removal" has the meaning given in subdivision 1, paragraph (a).

(b) A peace officer who arrests a person at a clandestine lab site shall notify the appropriate county or local health department, state duty officer, and child protection services of the arrest and the location of the site.

(c) A county or local health department or sheriff shall order that any property or portion of a property that has been found to be a clandestine lab site and contaminated by substances, chemicals, or items of any kind used in the manufacture of methamphetamine or any part of the manufacturing process, or the by-products or degradates of manufacturing methamphetamine be prohibited from being occupied or used until it has been assessed and remediated as provided in the Department of Health's clandestine drug labs general cleanup guidelines. The remediation shall be accomplished by a contractor who will make the verification required under paragraph (e).

(d) Unless clearly inapplicable, the procedures specified in chapter 145A and any related rules adopted under that chapter addressing the enforcement of public health laws, the removal and abatement of public health nuisances, and the remedies available to property owners or occupants apply to this subdivision.

(e) Upon the proper removal and remediation of any property used as a

clandestine lab site, the contractor shall verify to the property owner and the applicable authority that issued the order under paragraph (c) that the work was completed according to the Department of Health's clandestine drug labs general cleanup guidelines and best practices. The contractor shall provide the verification to the property owner and the applicable authority within five days from the completion of the remediation. Following this, the applicable authority shall vacate its order.

(f) If a contractor issues a verification and the property was not remediated according to the Department of Health's clandestine drug labs general cleanup guidelines, the contractor is liable to the property owner for the additional costs relating to the proper remediation of the property according to the guidelines and for reasonable attorney fees for collection of costs by the property owner. An action under this paragraph must be commenced within six years from the date on which the verification was issued by the contractor.

(g) If the applicable authority determines under paragraph (c) that a motor vehicle has been contaminated by substances, chemicals, or items of any kind used in the manufacture of methamphetamine or any part of the manufacturing process, or the by-products or degradates of manufacturing methamphetamine and if the authority is able to obtain the certificate of title for the motor vehicle, the authority shall notify the registrar of motor vehicles of this fact and in addition, forward the certificate of title to the registrar. The authority shall also notify the registrar when it vacates its order under paragraph (e).

(h) The applicable authority issuing an order under paragraph (c) shall record with the county recorder or registrar of titles of the county where the clandestine lab is located an affidavit containing the name of the owner, a legal description of the property where the clandestine lab was located, and a map drawn from available information showing the boundary of the property and the location of the contaminated area on the property that is prohibited from being occupied or used that discloses to any potential transferee: (1) that the property, or portion of the property, was the site of a clandestine lab; (2) the location, condition, and circumstances of the clandestine lab, to the full extent known or reasonably ascertainable; and (3) that the use of the property or some portion of it may be restricted as provided by paragraph (c). If an inaccurate drawing or description is filed, the authority, on request of the owner or another interested person, shall file a supplemental affidavit with a corrected drawing or description. If the authority vacates its order under paragraph (e), the authority shall record an affidavit that contains the recording information of the above affidavit and states that the order is vacated. Upon filing the affidavit vacating the order, the affidavit and the affidavit filed under this paragraph, together with the information set forth in the affidavits, cease to constitute either actual or constructive notice.

Upon filing the affidavit described in this paragraph, the affidavit and the affidavit filed under paragraph (h), together with the information set forth in the affidavits, cease to constitute either actual or constructive notice. Failure to record an affidavit under this section does not affect or prevent any transfer of ownership of the property.

methamphetamine production has occurred on the property, the disclosure shall include a statement to the buyer or transferee informing the buyer or transferee: (1) whether an order has been issued on the property as described in paragraph (c); (2) whether any orders issued against the property under paragraph (c) have been vacated under paragraph (i); or (3) if there was no order issued against the property and the seller or transferor is aware that methamphetamine production has occurred on the property, the status of removal and remediation on the property.

(n) Unless the buyer or transferee and seller or transferor agree to the contrary in writing before the closing of the sale, a **seller or transferor who fails to disclose, to the best of their knowledge, at the time of sale any of the facts required, and who knew or had reason to know of**

methamphetamine production on the property, is liable to the buyer or transferee for [Emphasis added]: (1) costs relating to remediation of the property according to the Department of Health's clandestine drug labs general cleanup guidelines and best practices; and (2) reasonable attorney fees for collection of costs from the seller or transferor. An action under this paragraph must be commenced within six years after the date on which the buyer or transferee closed the purchase or transfer of the real property where the methamphetamine production occurred.

242. **N. WATER INTRUSION AND MOLD GROWTH:** Recent studies have shown that various forms of water intrusion
243. affect many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture
244. leaving the home.

245. Examples of exterior moisture sources may be

- 246. • improper flashing around windows and doors,
- 247. • improper grading,
- 248. • flooding,
- 249. • roof leaks.

250. Examples of interior moisture sources may be

- 251. • plumbing leaks,
- 252. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
- 253. • overflow from tubs, sinks or toilets,
- 254. • firewood stored indoors,
- 255. • humidifier use,
- 256. • inadequate venting of kitchen and bath humidity,
- 257. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
- 258. • line-drying laundry indoors,
- 259. • houseplants—watering them can generate large amounts of moisture.

260. In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result
261. in the growth of mold, mildew and other fungi. Mold growth may also cause structural damage to the property.
262. Therefore, it is very important to detect and remediate water intrusion problems.

263. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to
264. humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health
265. problems, particularly in some immunocompromised individuals and people who have asthma or allergies to
266. mold.

267. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you
268. have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the
269. property inspected for moisture problems before entering into a purchase agreement or as a condition of your
270. purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the
271. property.

272. For additional information about water intrusion, indoor air quality, moisture or mold issues, go to the Minnesota
