

Lindahl Farms Dairy Cattle Retirement Auction

Sale Information Page

Regulation Testing:

- **Bird Flu** testing of all purchased out-of-state lactating dairy cattle is currently scheduled for Tuesday, June 10th, 2025 (post-sale), with anticipation of results on Thursday, June 12th. Cattle will be required to move within 7 days of testing. Testing procedures along with a timeline of results are not guaranteed due to potential updates in regulatory guidelines.
- **Bovine tuberculosis** (TB) will be completed post-sale for out-of-state purchases that require testing for transport.

Dairy Cattle Registration Information:

- All Holstein and Jersey cattle are identified with a "Certificate of Registration". At time of purchase, individual registration papers will be released to the buyer. **The buyer will assume responsibility for all certificate submissions and transfer fees.**

Herd Health Protocols:

- **Herd Vaccinations**
 - Bovi-Shield Gold and Vision 8 at 4-6 months of age
 - Bovi-Shield Gold, Vision 8, and Bangs vaccination at 6-10 months of age
 - Bovi-Shield Gold at 12-14 months of age (2 weeks before breeding)
- **Dry cow teat sealant**
