Auctioneer's Note: Keith was born and raised into a family farm and started sharing ground with his biggest influencer, his father, in the late 70's. He then purchased his first 14 cows from his uncle, starting his cow and calf operation. In the late 80's, Keith met his wife Sharon, who would later become a big part of their farm. For the last several years Keith and Sharon have been working side by side, operating the farm themselves. Over the last 40 years, Keith has seen it all; from hauling his grain to town for offsite storage, to owning his own dryer system; And now retiring from farming. Keith will continue to deliver seed for Syngenta along with spend more time fishing and at their lake home in Clear Lake.
