AUCTIONEER'S NOTE:

Bill Maher planted his first crop in the spring of 1978 and brought in his final harvest this fall of 2025, leading him into retirement. A quick glance through the photos will show you just how well-maintained his equipment truly is. The red paint gleams like it just rolled off the assembly line. If you're looking for pre-DEF, late-model Case IH machinery, this auction is one you won't want to miss!
