

Kohls Dairy Cattle Auction

Sale Information Page

Regulation Testing:

- **Bird Flu** testing of all out-of-state purchased lactating dairy cattle is currently scheduled for Tuesday, November 11th, 2025 (post-sale), with anticipation of results on Thursday, November 13th. Cattle will be required to move within 7 days of testing. Testing procedures along with a timeline of results are not guaranteed due to potential updates in regulatory guidelines.
- **Bovine tuberculosis** (TB) will be completed post-sale for out-of-state purchases that require testing for transport.

Herd Health Note:

- Cows at dry-off receive Quartermaster intramammary treatment along with Shutoff teat sealant.

Load Out Information

- Please contact Bob Hart at (608) 780-4587 to set up a load-out date and time.
