- Vinyl decal package put on truck.

Replaced coolant filter as it was leaking and tightening it did not fix issue. Topped off coolant. Tightened a seeping power steering line and topped off fluid. AC system had no freon. Charged system with just a half pound and found o-rings at compressor leaking. Replaced o-rings and charged system fully. Tested AC system and now functioning properly. Replaced Right, Rear, Inside tire with used from stock. Disposed of old, bad tire. Also, replaced Right, Rear brake chamber. Made up brackets for headache rack to have it secured with two brackets per side. Performed Annual DOT Inspection on truck. Everything now checks out proper and operational now at time of completion.

Thank you for your business!
