2. Feeder House

- 1 **Repair** Inspect feeder chain, slats, and links (item 1)
Clean out springs and adjusting slots.
Timing / Status: Immediately
- 2 **Passed** Feeder face (item 2)
- 3 **Passed** Feeder drum stops (item 3)
- 4 **Passed** Drive sprockets and strippers (item 4)
- 5 **Passed** Rock trap and wear bars (item 5)
- 6 **Passed** Bearings on lower drive shaft, upper feeder and rock trap (item 6)
- 7 **Passed** Feeder Floor (item 7)
- 8 **Passed** Pivot seal (item 8)
- 9 **Passed** Safety lock (item 9)
- 10 **Passed** Cylinder condition (item 10)
- 11 **Passed** Drive shaft (CVT) (item 11)
- 12 **Passed** U-joints (item 12)

3. Rotor

13 **Passed** Front rotor inspection, includes AFX auger flighting and hardware (item 15)

14 **Passed** Check rasp bars, straight bars, and kickers (item 16)

15 **Repair** Transition cone and vanes (item 17)

Left side of rotor cage area is plugged up. Clean out and make sure there is no damage. Check out fault code rotor vane blockage detected.

Timing / Status: Immediately

16 **Passed** Rotor skin (item 18)

17 **Passed** Vane condition (item 19)

18 **Passed** Cage (item 20)

4. Concaves and Grates

19 **Passed** Bent and broke (item 23)

20 **Passed** Concave anchor and motor (item 24)

5. Grain pan(front)

21 **Passed** Check spot welds (item 27)

22 **Passed** Check for material build up (item 28)

23 **Passed** Chaff fingers (item 29)

24 **Passed** Hardware (pivots, bushings, etc.) (item 30)

25 **Passed** Chaff fingers (item 31)

6. Shaker System

26 **Passed** Hanger bushing and hardware (item 34)

27 **Passed** Alignment (item 35)

28 Passed Check sieve condition, fingers, operation, and build-up (item 36)

29 Passed Check cleaning system, self-leveling, rollers, and roller track (item 37)

30 Passed Fin movement (item 38)

7. Cleaning Fan

31 Passed Blades (item 41)

32 Passed Build up in fan ductwork (item 42)

33 Passed Hydraulic motor (item 43)

34 Passed Free movement (item 44)

8. Chopper

35 Passed Check bearings (item 47)

36 Passed Stationary knife and rotary blade (item 48)

37 Passed Bearing support (item 49)

38 Passed Chopper concave condition (item 50)

39 Passed Build-up on inside and check chopper shaft seals wear (item 51)

9. Trash spreaders

40 Passed Check for broken hardware and looseness of fans (item 54)

41 Passed Check for broken fingers in concave (item 55)

42 Passed Check for leaks on motors (item 56)

10. Tailings Processor

43 Passed Check all pulleys for tightness and that hardware is present (item 59)

44 Passed Check bearings (item 60)

45 Passed Check belt drive and idler pulleys (item 61)

46 **Passed** Check auger condition (item 62)

47 **Passed** Check tailings volume sensor movement (item 63)

11. Clean grain Elevator

48 **Passed** Check drive belt, chain, and idlers for play (item 66)

49 **Passed** Check bearing play (item 67)

50 **Passed** Check all sprockets and chains (drive and paddle (item 68)

51 **Passed** Check head shaft and drive gears (item 69)

52 **Passed** Check for proper play in slip clutch (item 70)

53 **Passed** Check bubble up auger bearings for wear (item 71)

54 **Passed** Check all idler brackets for straightness (item 72)

12. Unload system

55 **Repair** Check auger and bearing condition (vertical, horizontal, and floor) (item 75)

**Unload auger not sitting
on saddle. Bolts on top
slide plate loose. Bolts
rubbing elbow.**

Timing / Status: Immediately

56 **Passed** Check tube and elbow condition (item 76)

57 **Passed** Check upper and lower gearboxes (item 77)

58 **Passed** Check mid-ship bearings at extension (item 78)

59 **Passed** Check driveshaft bearings, collars, and idler pulley (item 79)

60 **Passed** Check end bearing, collar, and grain saver (item 80)

13. Electrical

61 **Passed** Check all lights, inspection lights, hazard lights, etc. (item 83)

62 **Passed** Check all audible alarms (item 84)

63 **Passed** Check variable speed changes (rotor, fan feeder, etc.) (item 85)

- 64 **Passed** Check variable location functions (concaves, sieves, etc.) (item 86)
- 65 **Passed** Check self-leveling (item 87)
- 66 **Passed** Check PRA and two speed hydro (item 88)
- 67 **Passed** Check charging circuit (item 89)
- 68 **Repair** Check unloader swing and engage (item 91)
Doesn't sit on saddle.
Timing / Status: Immediately
- 69 **Passed** Check feeder reverser, AFC, shaft speed monitor, and neutral start (item 92)
- 70 **Passed** Check gear shift change (item 93)
- 71 **Passed** Check all grounds and harness routing (item 94)
- 72 **Passed** Check display functionality (item 95)
- 73 **Passed** Check electric fuel pump and climate control (item 96)

14. Engine

- 74 **Passed** Check for leaks in fuel, oil, and air system (item 99)
- 75 **Passed** Check fluid levels (item 100)
- 76 **Passed** Check manifold and exhaust pipes (item 101)
- 77 **Replace** Check stratus tubes (item 102)
Replace air filter. Check for plugging of aspirator, air filter was plugged.
Timing / Status: Immediately
- 78 **Passed** Check for collapsed hoses and air cleaner (item 103)
- 79 **Passed** Check water pump and idlers (item 104)
- 80 **Passed** Check alternator wire routing (item 105)
- 81 **Replace** Check radiator/cooling box area is free of debris (item 106)
Replace brushes frozen brushes on wand. Make sure they are adjusted right.
Timing / Status: Immediately

15. Chains and belts

82 **Passed** Check clean-grain chains (dive and bubble-up) (item 109)

83 **Replace** Unloader chain (item 110)

Replace main unload chain.

Timing / Status: Immediately

84 **Passed** Check tailings drive belt (item 111)

85 **Passed** Check clean grain elevator belt (item 112)

86 **Replace** Check unload belt (item 113)

Replace cross auger drive belt. Check to make sure idler pulley stay in up position and comes on after vertical engages.

Timing / Status: Immediately

87 **Replace** Check shaker drive (item 114)

Replace shaker drive belt. Has crack.

Timing / Status: Immediately

88 **Passed** Check ac, alternator, and fan belts (item 115)

89 **Passed** Check RAS drive belts (item 116)

16. Hydrostat and CVT drives

90 **Passed** Check u-joints on rotor CVT drive (item 119)

91 **Passed** Check speed changes in CVT drives (item 120)

92 **Passed** Check park brake function (item 121)

93 **Passed** Check torque on front and rear wheels (item 122)

94 **Passed** Check lube and tightness on drive couplers (item 123)

95 **Passed** Check steering joints and cylinders (item 124)

96 **Passed** Check axles for cracks (item 125)

17. Hydraulics

97 **Passed** Check for leaks and routing of hoses (item 128)

18. Fluid levels

- 98 Engine oil (item 131)
- 99 Coolant (item 132)
- 100 PTO gearbox (item 133)
- 101 Transmission (item 134)
- 102 Final drives (item 135)
- 103 Brake reservoir_ (item 136)
- 104 Upper unloader and lower unloader (item 137)
- 105 Tailings (item 138)
- 106 Bubble up (item 139)
- 107 Rotor (item 140)

19. Structure

- 108 Check suspension rod between final drive extensions (item 143)
- 109 Check bolts that fasten main unit to front axle (item 144)

20. Optional (additional charge)

- 110 Check hydraulic drive pressures (item 147)
- 111 Flow rate hydraulics (item 148)
- 112 Clutch pack leak test (item 149)

21. Additional/Miscellaneous

113 Replace

Replace cab air filter.

04 Unload System

CONCERN:

Adjust unloading auger to sit in the saddle
 Tighten up bolts on top slide plate

CORRECTION:

Raise unload tube so there two degree higher in the rear. Adjust saddle to correct height. Auger will still not go into saddle check restrictors in valve block made sure they were clear. Remove swing cylinder pin and swung tube in and out by hand. Order a new swing cylinder. Remove old cylinder with crane swap over parts hoses eyelet. Install new cylinder hookup hoses and cycle in and out. Unload auger goes in saddle like it should. Went out and run through all combine functions.
