Truck came into shop for noise in front differential. Drained oil and pulled axles and drive shaft. Then pulled differential. Cleaned axles, hubs, and differential housing. When differential came back from Southwest Truck, it was installed back into the truck. Then put axles and drive shaft back in. Checked operation.					

Thank You for your business!

Limited 90 Day Workmanship Warranty. Parts warranty varies by manufacturer. Ask for details.

RETURN POLICY: All returns must have original invoice. A 10% restocking charge will be deducted from credit on ALL special order parts if not returned within 30 days from invoice date.

A finance charge of 1.5% will be applied to your bill on all remaining balances not paid before the next billing cycle. In the event this and/or other invoices are referred to an attorney or agency for collection, the undersigned agrees to pay all costs of collection, including a reasonable attorney's fee.

		I pulled truck in and removed dash pieces to get to blower motor and found it going bad so ordered new one then checked over the truck and found a few other issues. Then Jimmy drained coolant and removed and replaced O rings on coolant tube and filled coolant back up and checked for leaks. Let truck get up to temperature. Had no leaks. Did driver side front axle wheel seal and brakes and new drum. Jacked truck up. Took off wheels, drum and wheel hub. Cleaned hub and bearings. Put hubs back on. Checked operation.
