DIAGNOSE TEST

118641 MENDE, KEVIN LIC#: 1

CMC

3 yr 100,000 mi warranty

178.00 178.00

121246 Transmission - Diag 1.00 Test drove; not shifting intermittently and SES light on. Found codes P0700 and P0747 for trans control solenoid valve 1 stuck on. Found TSB #24-NA-088: Diagnostic Tip for Malfunction Indicator Lamp (MIL) illuminated, Transmission Not Shifting/Default Mode - DTC P0747 Set - This condition may be caused by the Transmission Control Valve Body that has most likely failed causing the P0747 to set and the default condition. Need to remove pan for inspection for metal and clutch debris; no debris found need to replace trans control valve body. In most cases of DTC P0747, the control valve may only need replacement. Ordered valve body; after waiting 3 weeks still no ETA for part. Ordered complete transmission; received in 2 days.
