#### EASEMENTS AND SURVEY

#### **BIDDING PROCEDURE**

As a buyer you have two objectives to accomplish:

- 1. Purchasing the property.
- 2. Purchasing the property at a price vou can afford.

#### How is this accomplished?

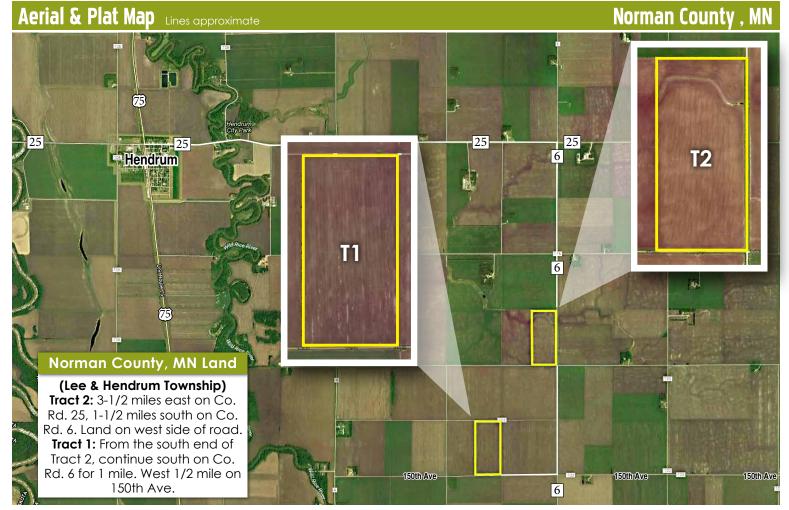

- 1. Estimate comparative value.
- 2. Experienced buyers always decide what to pay before the bidding begins.
- 3. Inspect the property carefully.
- 4. Compare with other properties available in the area.
- 5. Check the selling price of previously sold properties.
- 6. Discuss your buying plans with a lender. Have your financing arrangements made in advance.

#### AVOID OVER OR UNDER BIDDING

- Always bid on a property toward a price.
- Establish that price before the bidding begins. By doing this you will avoid getting caught up in the auction excitement and pay a price that is too high for the market or one that you cannot afford. It will also make you confident to bid to your established fair market value. Many bidders who do not plan ahead end up with regrets after the auction because they were too nervous or uncertain about their judgment to bid.

#### THE BIDDING STRATEGY

- Research and know the value of the property.
- Have your financing arranged before the auction.
- Establish your highest and best bid before the bidding begins.
- Make your bids promptly to force other bidders up or out without delay.

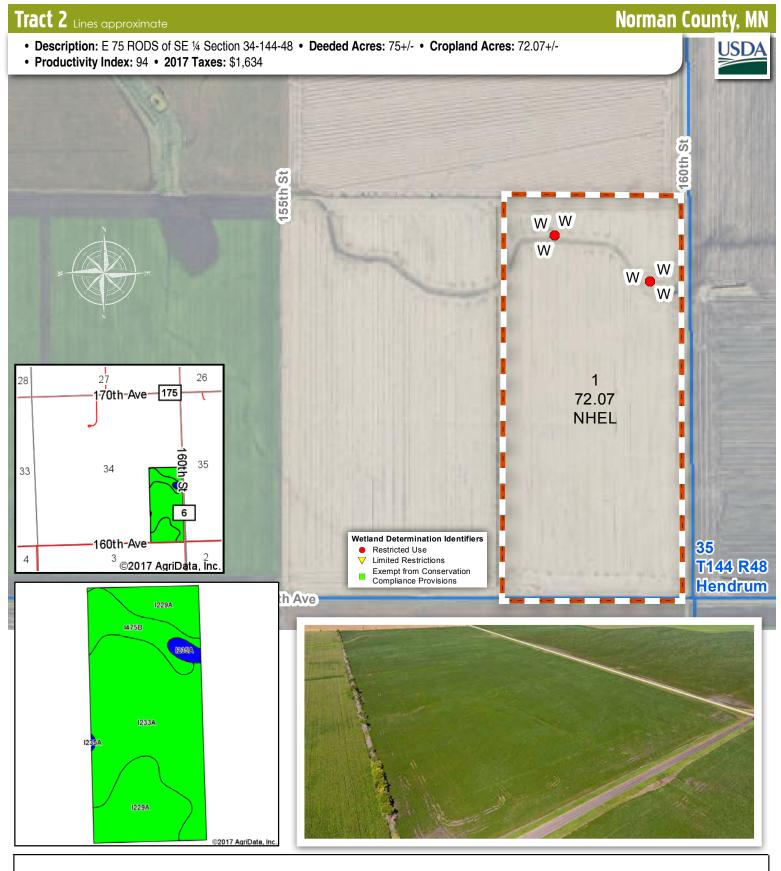

This auction features 155± acres of productive Red River Valley farmland suitable for Sugar Beets and other major row crops. The two tracts have an overall productivity index of 94. This land could offer an investor solid returns, or be great productive acres to add to any farming operation.
