Dear Property Owner

This letter is being sent to inform you that upon reviewing the Time of Transfer inspection done on (9/27/2022) for your property at the above address. The septic system on that property did not pass inspection and will have to be replaced. The secondary is failing because it was not properly installed. A copy of the inspection is on file at our office if you wish to review it. I have enclosed a Septic packet in this mailing for your information. Feel free to call our office in Wapello at 319-523-3981 if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Brian Thye". The signature is written over a horizontal line.

Brian Thye
