THROTTLE ISSUES

COMPLAINT:

CUSTOMER CALLED SAID HE IS HAVING ISSUES WITH THE THROTTLE.
MOVES THE DIAL AND NOTHING WORKS.

CORRECTION:

Arrived on site and spoke to customer. Unit had four codes.
Two were for
LS and pump solenoid opened. Customer not concerned at this
time
about that, wanted
throttle to work. Had two codes E316 and E317.
Troubleshoot electrical. Checked resistance and continuity
on connector 2 at controller to connector 5 at governor
step motor. Machine harness tested fine. Checked resistance
at motor and it was low compared to table in service book.
Ordered new motor.
Returned and plugged in governor motor and it still did not
work.
Unplugged and put back away. Rechecked wires, fuel control
dial and all was checking out. Came up with a bad pump
controller, will get one listed for price and availability.
Listed controller and ordered.
Returned and checked fuse and holder, it was good. Checked
voltage was .03 to 4.9 volts as I moved the dial. Checked
voltage at actuator there was no voltage. Found 2 wires
rubbed
through and shorting out. Repaired wires and checked
voltage at actuator again. Voltage from 0.1 to 4.8 at

actuator now. Actuator was still not working. I will pick up new one at the shop.

Arrived back and OHM'ed out wires from governor to controller. All checked out good, found 2 more bare wires and repaired. Did continuity checks on back of controller between C02 and C03 plugs, all checked out. Checked voltage at throttle switch and voltage went from 0.1 to 4.9 volts. Checked voltage input at controller from throttle switch and voltage was the same. Did not have any signal voltage out of controller to governor. Had 5 volt supply and ground but no signal. Ordered controller.

Returned and removed old throttle controller. Replaced with new controller. Checked voltages and all are good. Plugged in old governor for throttle, works as it should. Put cab back together. Ran machine and tested throttle functions, all working as they should.

Thank you for choosing Road Machinery & Supplies Co.
